PROFILE

Hello, I am MERVE KÜÇÜKDEVECİ Architect & Interior designer & Landscape designer. I have received two bachelor's degrees with a dual degree program in 5 years.

I have a personality that does not give up to get information, tries all the ways to learn, and is determined, does not give up. I like to do the given job, the task by competing with time, I like to make a clear and precise shot at achieving the result with selfless planning by hugging every job with excitement like my first job, in short, I like architecture, I do it by adopting it because I am indispensable.

Jonathan livingston the said, " Don't believe what you see with your eyes. All that appears is limited. When you try to understand and look beyond what you know, you will learn the meaning of flying better." As he said, I would like to be able to go beyond my dreams.
